Two roads diverged in a yellow wood, And sorry I could not travel both And be one traveler, long I stood And looked down one as far as I could To where it bent in the undergrowth;

. . .

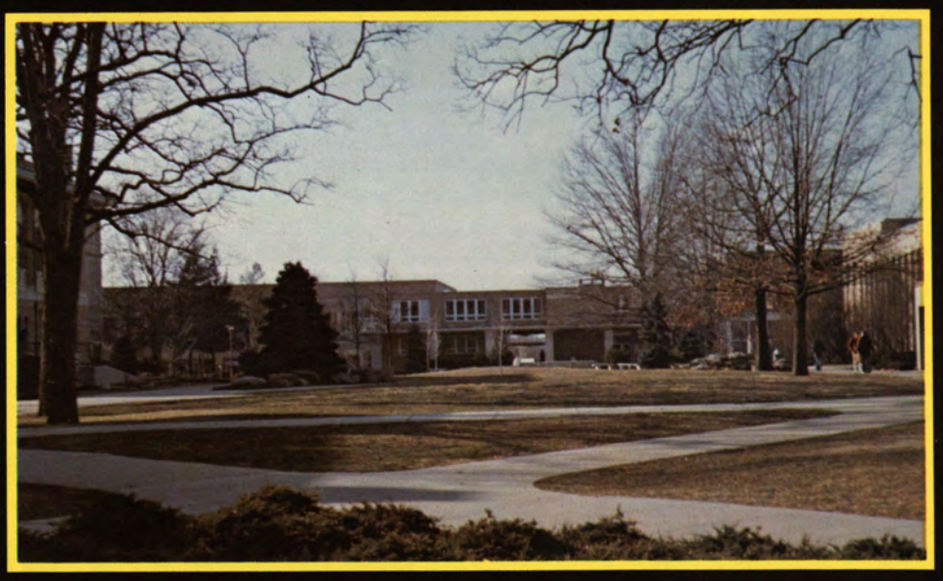

I shall be telling this with a sign Somewhere ages and ages hence: Two roads diverged in a wood, and I — I took the one less traveled by, And that has made all the difference.

—Robert Frost

Sometimes in our lives we have all come to the crossroads where we decided to take the path that led to UMR. Perhaps the path seemed less traveled; maybe that was part of our reason for choosing it. Yet, we wondered about that other path: Where did it lead, what would we have encountered along it? There were so many opportunities, so many things we could have done.

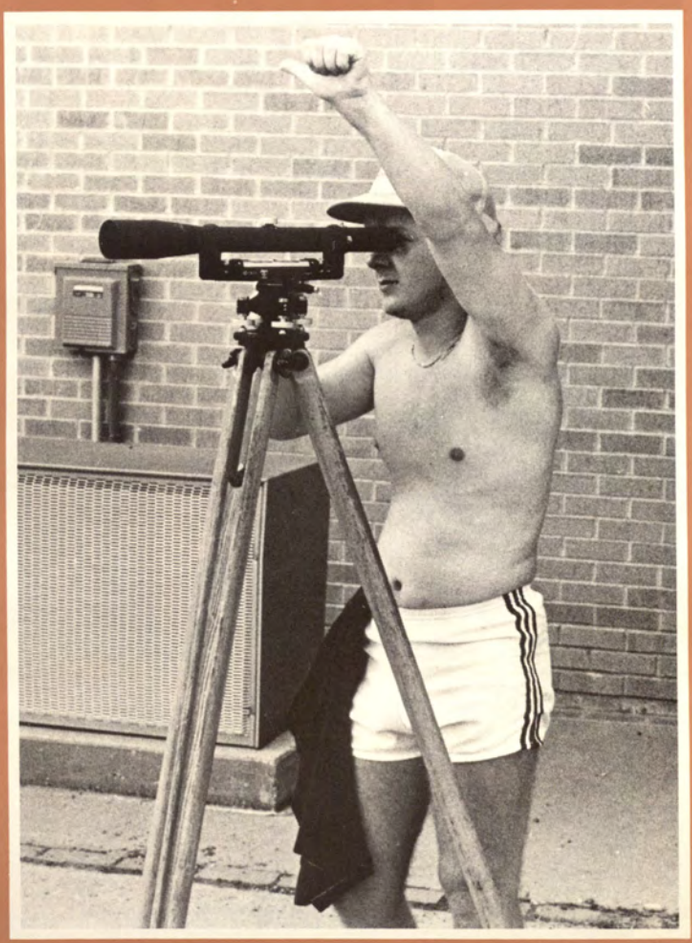

ΣΦΕ

We chose this path, regretting it at times, and at other times glad and proud of it.
Here we are on our mission, sometimes swinging, other times pushing along to meet the challenge, trying to keep our head above water.

At other times we almost forgot there was a world beyond Physics, Calculus and other such fascinating subjects.

Sometimes we found time to get away from the life in the fast lane and spend time with creation and the Creator, soaking up the beauty of the Ozark counstryside while renewing our minds.

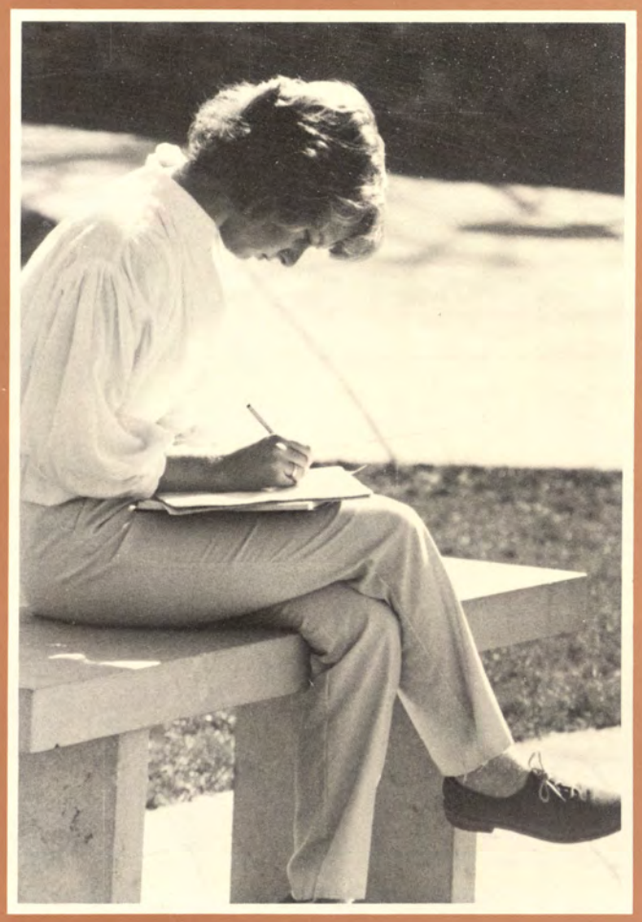

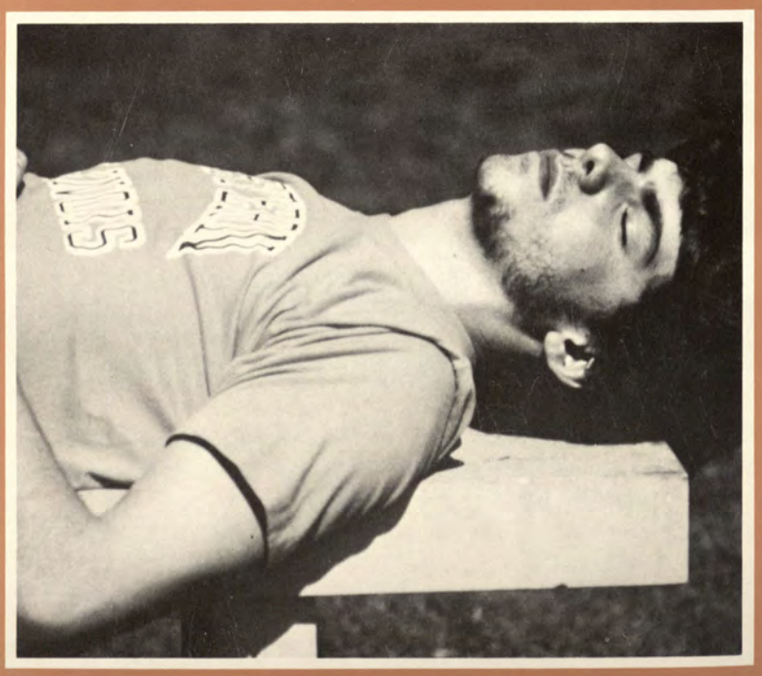

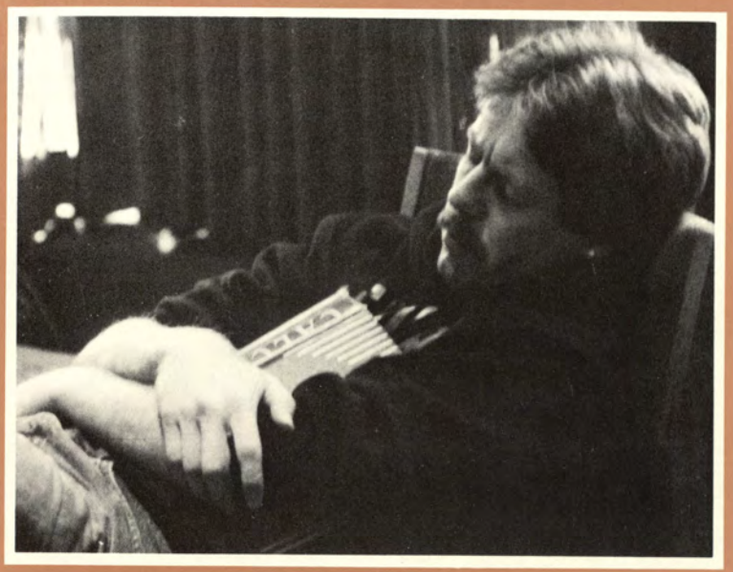

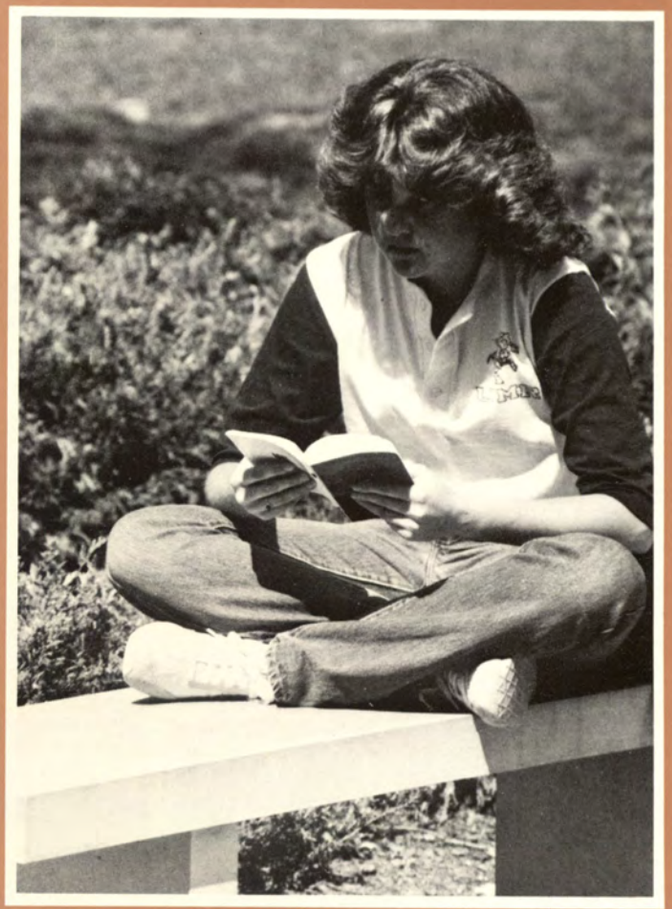

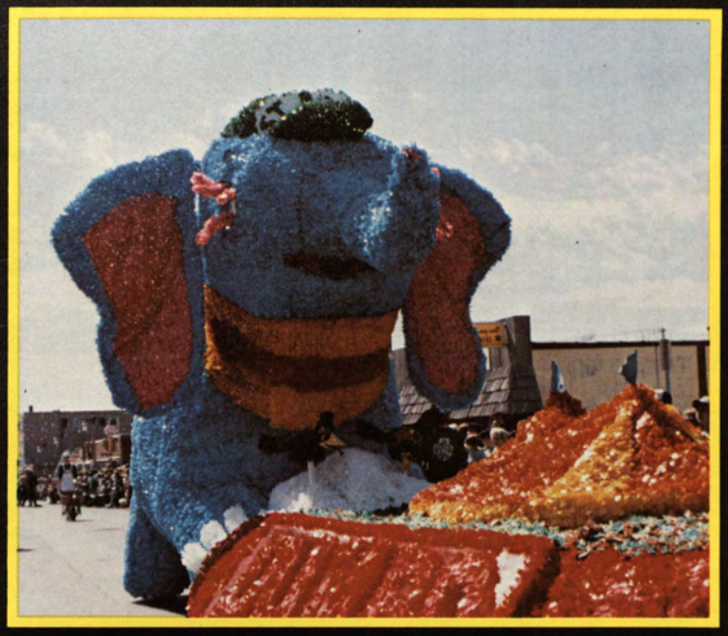

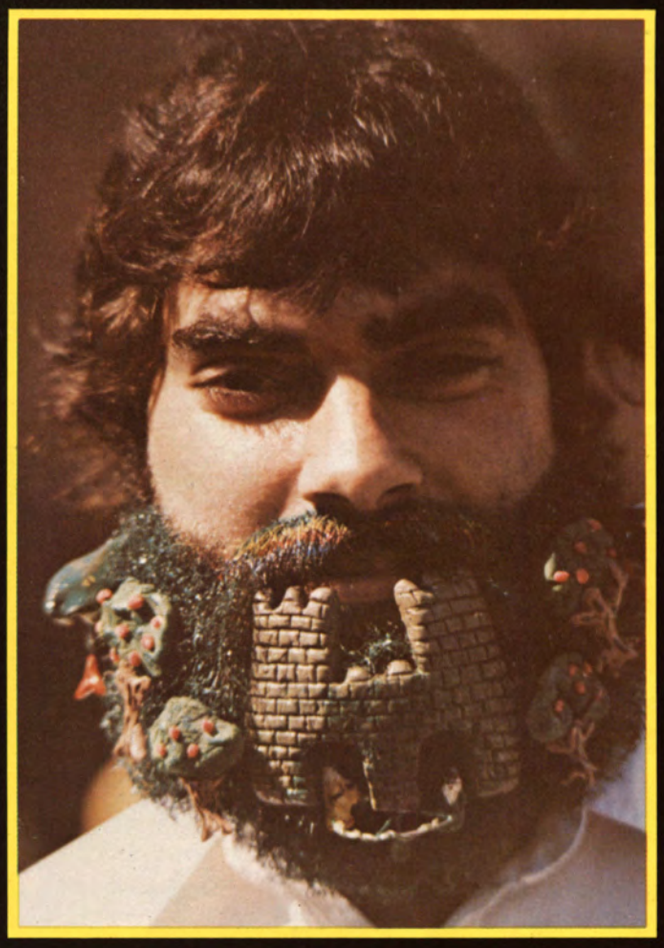

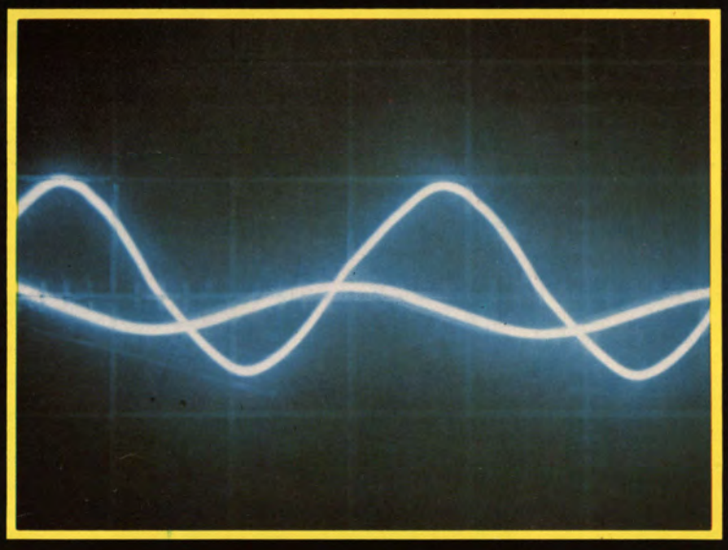

Finally we reach our destination only to find rather than an end to our road, another choice to make and where that path will take us along the journey of life.

SEPTEMBERFEST
THE BEST IS YET TO COME

Look out for the bull, he'll drink all your beer!

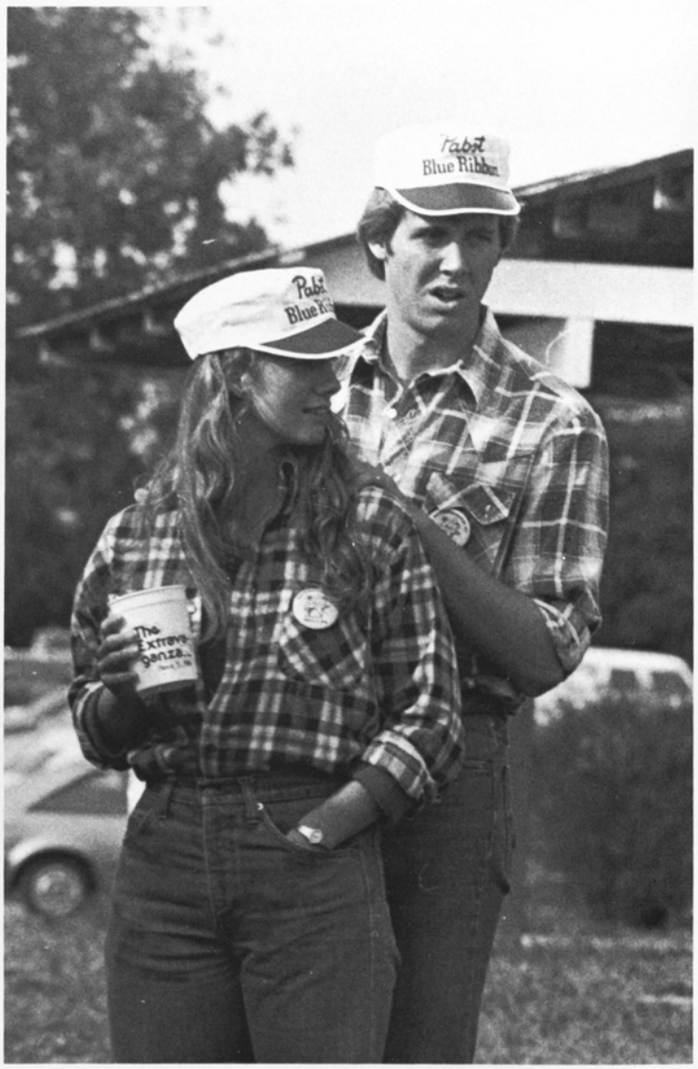

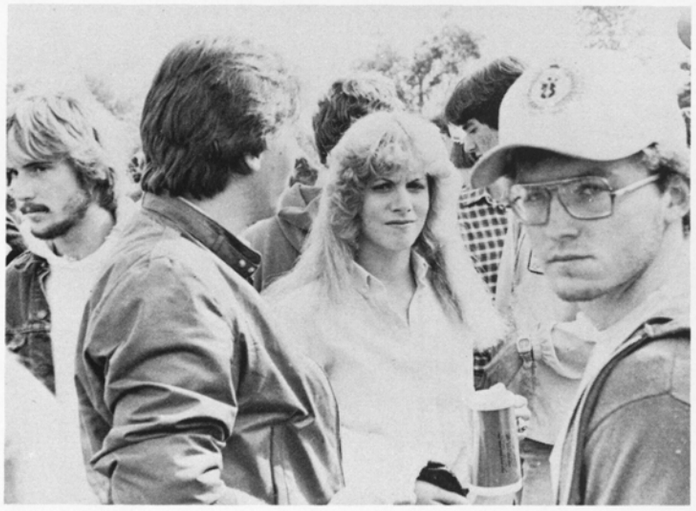

Music by "Missouri Southern" band.

To get psyched for the "best ever," the St. Pat's Board hosted the fourth annual Septemberfest on Sept. 18th. After paying $2 for a button, it was four hours of all the beer you could drink. The liquor inspectors put a lean on fun this year, but everyone had a good time anyway. Music was provided by "Missouri Southern" and a few of the more well — endowed and less shy coeds competed in a wet t-shirt contest. Photo of winning contestant not available.

MISSOURI INDUSTRY DAY

The fourteenth annual Missouri Industry day was held for the students of UMR in the multi-purpose building. Sixty-one companies associated with engineering were represented. Students were encouraged to talk with and ask questions of the representatives. Not only did everyone gain a little knowledge but some even won a door prize or picked up a freebie from one of the generous displays.

I have been a good boy. I have flunked many. Since my job pays good for the suffering I dish out I really don't need much. But, Santa, if you could use your magic, I would really like some hellos from the Tee-people and the twins. It would be a very special Christmas.

The intention of this yearbook is to serve the students of UMR with a medium by which memories will be preserved and recalled. I sincerely hope that everyone may find a part of themselves within these pages, no matter which path they travel, or traveled.

This volume could not exist without hard, diligent work by the staff. Although the task was often rushed and sometimes frustrating, I am sure they share the pride I have in this pictorial account of the 1981-82 school year at the University of Missouri-Rolla.
